BLACK STONE SERIE / SERIES

BLACK STONE Mineralwerkstoff besteht zu zwei Dritteln aus natürlichen Materialien und einem geringen Prozentsatz aus sehr widerstandsfähigen Harzen und Polymeren. Diese Zusammensetzung verleiht BLACK STONE eine einzigartige warme, natursteinähnliche Beschaffenheit mit herausragenden Eigenschaften. Diese ist extrem widerstandsfähig gegen alle Arten von chemischen und physikalischen Einflüssen. Seine völlig undurchlässige Oberfläche prädestiniert BLACK STONE für Räume mit höchstem Anspruch an Sauberkeit und Hygiene. / BLACK STONE is a high quality composite „solid surface" material, made of natural materials, resins and polymers. This composition gives the BLACK STONE a unique warm quality, similar to natural stone. Resistance to all sorts of chemical and physical influences, as well as its completely impermeamble surface make this material the to one of the first choices for interiors when hygiene and neat design matter the most. The material has many advantages.

Wasserabweisend: STONE ist fugen- und porenlos, was die Aufnahme von Flüssigkeit verhindert und die Reinigung und Pflege erleichtert / Waterproof: corrosion or swelling due to steam or moisture is not possible, the surface cannot be damaged by moisture, rot or mildew and liquids cannot penetrate it.

100% hygiensich, schmutzabweisend durch seine nicht-poröse Oberfläche / 100% hygienic, dirt repellent and stain resistant due to non-porous surface

Homogen und porenfrei / Completely homogenous

Angenehme Haptik / Pleasant to touch

Pflegeleicht / Easy to repair and care

Umweltfreundlich: 100% recycelbar / Eco-friendly, 100% recyclable

STONE ist Qualität, 100% made in Europe / STONE is 100% European made quality
